RIDGID "400" for Performance, Convenience, Durability

★ Modern streamlined design, light rugged alloy case —3 models: bench, stand with handy tooltray and wheel stand.

★ Capacity ⅛″ to 2″—to 12″ with geared tools and RIDGID Universal Drive Shaft; ¼″ to 2″ bolts.

★ RIDGID designed 3-jaw chuck with 6 adjusting pinions—always one handy. Chuck wrench ejectors.

★ Rubber-guarded chuck wrench slot—bump-proof recessed switch—rubber grommets in feet to prevent creeping.

★ Sealed-in lubrication—no oil to spill.

★ Lots of power—universal motor, forward, reverse, won't bog down on large pipe; light socket plug.
